

TOTAL PROPERTY MAINTENANCE

TOTAL PROPERTY MAINTENANCE.

LANDSCAPE MAINTENANCE

Every property is different. We specialize in keeping your property looking its best by creating a custom maintenance plan. Our combined solutions include detailed mowing, tree and ornamental trimming, clean-up / debris removal, and annual flowerbed design & installation.

IRRIGATION & WATER MANAGEMENT

Irrigation is much more than fixing sprinklers; it's managing a limited resource in Florida. Our professionals are experts in getting your irrigation system to deliver water where it needs to be. This plays a crucial role in saving you money on your water bill as well as abiding by stringent city and county codes.

FERTILIZATION & PEST CONTROL

Proper fertilization is crucial to the health of your lawn. A green, thick, and plush lawn is the direct result of expert knowledge and experience in the industry. Your new fertilization program combined with an aggressive pest program is the best proactive solution possible.

INDOOR PEST CONTROL

Keeping your property pest free is an outdoor and indoor process. The plant palette in your landscape can attract certain pests that love working their way inside your home. When our professionals are on-site performing their regularly scheduled visits, adding an indoor pest control program just makes sense.

BECAUSE YOU DESERVE IT.

Floralawn understands that a well-maintained landscape adds to your property value and becomes the talk of your neighbors. Once we understand your needs and expectations, we'll create a customized maintenance program, execute it relentlessly, and then proactively suggest enhancements to your landscape over time.

ENHANCEMENTS & BEAUTIFICATION

Landscapes are living organisms with unique lifecycles. A critical component of effectively maintaining landscapes is to manage this evolution over time with enhancements.

Whether it's a seasonal upgrade, applying a fresh layer of mulch, or replacing damaged sod, FloraLawn will proactively propose enhancement ideas that match your landscape priorities.
